

BENCH MATTING STATIC-FREE

2 Layer Premium Bench Synthetic rubber Matting 2.0mm Thick
2-layer Static Dissipative top surface, black conductive bottom layer.
Chemical and heat resistant. These mats meets the requirements of US ESD Associations ANSI S4.1 and S20.2 guidelines.
Available in Blue, Grey and Green
Available in rolls of 10Mtr as well as Custom sizes

Part Number	Size
ABM600-10	600mm x 10Mtr
ABM900-10	900mm x 10Mtr
ABM1200-10	1200mm x 10Mtr

Product Details:

- **Durable rubber material, dissipative on one side and conductive on the other**
Versatile and long-lasting product; use as a dissipative worksurface table mat. Bottom conductive layer provides reliable path to ground, compatible for use with continuous monitors
- **Dissipative worksurface - 10E6 - 10E8 ohms RTT**
Slows charge removal; meets minimum recommended worksurface requirements of ANSI/ESD S20.20 and recommendations of ESD 4.1
- **Lightly embossed surface**
Easier to clean than vinyl mats; excellent coefficient friction for handling electronic products
- **100% Premium Nitrile Butadiene Rubber**
Excellent value providing long-lasting, good-looking life; consistent electrical properties; will never delaminate; can also be taped or glued down
- **Superior heat, chemical and wear resistance**
Excellent choice in soldering and other challenging manufacturing environments.
- **Top of mat kits laser engraved with ESD protective symbol & manufacturer**
Identifies ESD protective product for control & auditing purposes
- **Non-humidity dependence**
Provides consistent electrical performance regardless of ambient humidity
- **Dimensionally stable and lays flat**
Minimal shrinkage and curling
- **Lead-free RoHS compliant**
- **Superior limited lifetime warranty**
Electricals guaranteed for the life of the mat

FLOOR MATTING STATIC-FREE ANTI-FATIGUE

Guaranteed to lay Flat, Excellent floor mat for hard surface and carpeted areas.
Provides safe floor allowing personnel, chairs and carts to pass freely.
Chemical Resistant, stand up well to most factory chemicals such as acid and alkali solutions
Durable and long lasting, Reversible
Available in Black, Green
Available in Custom sizes.

Part Number	Size
DAT 7095	1.5mm 600mm x 1Mtr
DAT 7098	1.5mm 1.2Mtr x 1Mtr
DES15005	1.5mm 1.2Mtr x 1Mtr

Product Details:

- **Homogeneous foam vinyl**
Provides economical anti-fatigue properties, improving worker comfort
- **For use where meeting ANSI/ESD is not a requirement**
- **Slip resistant and soil resistant heavy embossed texture**
Safe surface for workers; mat stays clean
- **Durable top wear layer**
Saves money; proven long lasting
- **10E9 - 10E10 ohm resistance**
Choice where meeting ANSI/ESD S20.20 and/or EIA-625 not required
- **Top of Mat kits laser engraved with ESD protective symbol and manufacturer**
Identifies ESD protective product for control and auditing purposes
- **Non-humidity dependence**
Provides consistent electrical performance regardless of ambient humidity
- **Dimensionally stable**
Minimal shrinkage and curling

GROUND SNAP STUDS

Pronged 10mm stud or socket snap
Ideal for multi-layer mats with a conductive inner layer
Push and clinch installation
Easy to use; secure installation

Male Stud

Part Number
6S401

Female Socket

Part Number
6S402

ANTISTATIC WRIST STRAP

An Elasticised Wrist strap along with Banana plug/ removable alligator Clip.
3Mtr Length Highly conductive comfortable interior with flexible exterior.
Adjustable, So that one Size fits all. This is ideal for moving about the workbench without having to unclip yourself

Part Number
A010007

Part Number
TH 1781

Metal Adjustable
Part Number
A010005

GROUNDING CORDS

Floor Mat Ground

Features:
10' long straight cable with molded low profile mushroom cap. 10mm snap ensures secure connection to floor mats. #10 ring terminal for connection to ground.

Part Number
6L339

Common Point Ground

Features:
10' long straight cable with molded in 1 Meg Ohm resistor. 10mm snap ensures secure connection to table mats. Includes two banana jack receptacles for wrist straps. #10 ring terminal for connection to ground

Part Number
6L337

GROUND CORD DUAL BENCH JACK

Molded enclosed box contains no metal edges and mounts under front edge of workstation.
Includes a 10' long ground cable with #10 ring terminal connector. Two banana jack receptacles for secure ground connections. Two parking studs (4mm) for storing cords when not in use.

Part Number
89742

ANTISTATIC GROUNDING PLUG

With external Earth connection only.

Part Number
CLIP463AS
