

SOLDERING IRONS

SOLDERING IRON - 30 WATT

High quality 240V AC mains powered soldering iron with a long life Nichrome element. Fitted with an approved flexible 1.8m cord. Rated at 30 watts, the iron has fast warm up times and is supplied with a long life metal clad tip. Temperature rating of 330°C
 - Approved to AS3114-1993.
 - Replacement tips available: RT301, RT302

Part Number
TSA30

DUAL TEMP SOLDERING IRON 80 WATT

Dual wattage high quality 240V AC mains powered soldering iron with a long life. Ceramic element. Fitted with an approved flexible 1.8m cord. Rated at 40 watts and when button is depressed the wattage quickly increases to a powerful 80 watts. Temperature rating of 330 - 420°C
 - Approved to AS3114-1993.
 - Replacement tips available: RT401, RT402

Part Number
TSA40

SPONGES

An assortment of sponges suitable for various soldering iron stations.

SPARE TIPS

Replacement tip to suit TSA30.
 - 2mm flat tip

Part Number
RT301

Replacement tip to suit TSA30.
 - 1mm flat tip

Part Number
RT302

Replacement tip to suit TSA40.
 - Point shape

Part Number
RT401

Replacement tip to suit TSA40.
 - 2mm chisel shape

Part Number
RT402

SOLDERING IRON STAND

Soldering iron stand with strong coil designed to hold most different brands of soldering irons.
 - Large metal base aids stability.
 - Supplied complete with sponge cleaning pad.

Part Number
TSA3

Part Number	Description	Size
CS17	Sponge sheet	216 x 431mm
CS-17-7040	Sponge sheet	70 x 40mm
CS-17-7050	Sponge sheet	70 x 50mm
CS-17-8040	Sponge sheet	80 x 40mm
WTC205	Weller sponge	65 x 65mm
HK926-029	Sponge for HK926	102 x 43mm
HK936-A1042	Sponge for HK936	70 x 70mm

PCB HOLDER

Printed circuit board or solder job holder with cast iron base. This model is supplied with a magnifying glass to help on those really small soldering jobs. Weighted diecast base. Full 360° swivel action and sturdy alligator clips hold the job in place.

Part Number
TSA4

FUME EXTRACTOR

WARNING!

Solder fumes can cause headaches, nausea and eye irritations. Using one of these fume extractors on your workbench reduces your chances of suffering from these conditions.

Power Consumption: ...22W
 Max. Air Volume:115CFM
 Weight:1.6kg

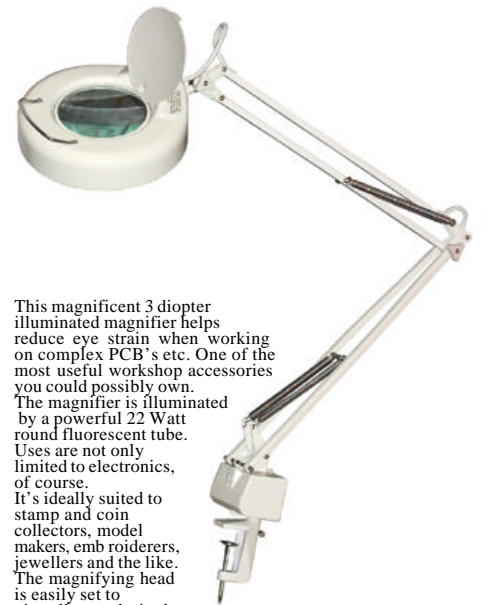

The T1290 is designed to remove noxious solder fumes from the work area. Suitable for use in production lines, service centres, R&D work benches or by the hobbyist. It incorporates a ball bearing high volume 120mm fan to maximize airflow. The swivel adjustable legs allow the unit to be easily located close to the work space.

- Features:
- Swivel adjustable legs
 - Incorporates high volume ball bearing fan
 - Washable filter
 - Large air intake
 - Robust construction
 - 12 months warranty
 - ESD safe

T1290	Fume Extractor

Part Number	Description
T1291	Replacement foam filter

INSPECT-A-GADGET

This magnificent 3 diopter illuminated magnifier helps reduce eye strain when working on complex PCB's etc. One of the most useful workshop accessories you could possibly own. The magnifier is illuminated by a powerful 22 Watt round fluorescent tube. Uses are not only limited to electronics, of course. It's ideally suited to stamp and coin collectors, model makers, embroiderers, jewellers and the like. The magnifying head is easily set to virtually any desired position on it's spring-loaded arm assembly. Simply clamps to your workbench or desk.
