

## HAND TOOLS

### ADJUSTABLE WIRE STRIPPER

Simple and easy to use. Jaws incorporate cutting and stripping blade. With hardened jaws.

Part Number  
**T1510**

### AUTOMATIC WIRE STRIPPER

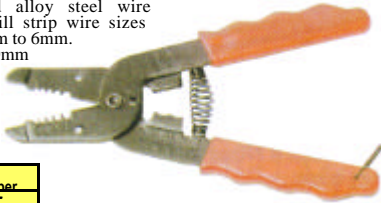

Includes built-in cutter. Insert cable and squeeze the handle for an easy and accurate strip. With adjustable tension and strip length.

Part Number	Description
<b>T1522</b>	Automatic Strippers
<b>T1525</b>	Replacement Blades

### WIRE STRIPPER & CUTTERS

Toughened alloy steel wire stripper will strip wire sizes from 0.5mm to 6mm. Length 150mm

Part Number  
**T1825**

### DELUXE WIRE STRIPPER

A completely automatic wire stripper, allowing to strip wires from 1.0 to 3.2mm. Solid metal construction

Part Number  
**T3620**

### PROFESSIONAL WIRE STRIPPER

High Quality Japanese wire strippers made from all steel body, better suited for the professional that needs a quick and fast action tool.

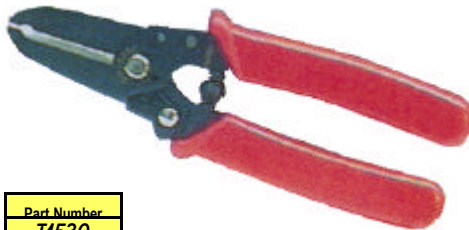

Features  
 \* V Shaped blades for fine wire.  
 \* Strip size 0.09 - 1.25mm  
 \* Diecast steel body  
 \* Compact design

Part Number  
**YS-30**

### FLAT CABLE CUTTER

Cuts up to 30mm wide flat cable. Incorporates steel wire cutter (up to 3mm?) Fantastic for IDC and any flat cable.

Part Number  
**T1530**

### CABLE CUTTERS

Curved jaws to easily scythe through cables up to 9.5mm in diameter. Includes catch to lock handles closed when not in use.

Part Number  
**T2850**

### HEAVY DUTY WIRE STRIPPER

Designed for easy wire stripping. These alloy steel jaws can strip all types of wire from AWG 10-26 gauge. Also incorporates quality crimping jaws.

\* For insulated terminals 1.5 - 6mm  
 \* For non insulated terminals 1.5 - 6mm  
 \* For Auto Ignition terminals 7-8mm

Part Number  
**KVP731**

### CABLE STRIPPING TOOL

The ultimate cable stripping tool for the industrial electrician. Stripping tool for cables up to 10mm diameter.

One twist and it's stripped.

Part Number  
**STRIPSY**

### CABLE STRIPPING TOOL

Automatic wire stripping tool. Strips wires 0.5 - 4mm?

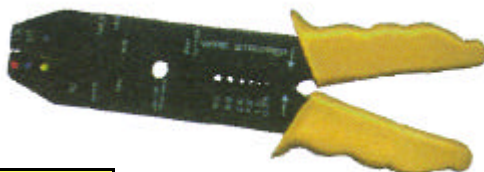

Part Number  
**STRIP4RED**

## CRIMP TOOLS

### TERMINAL CRIMPING TOOL

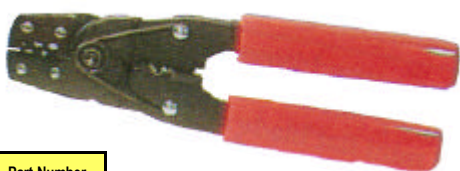

Suits red, blue and yellow connectors. Incorporates cutters and stripper.

Part Number  
**CS300**

### TERMINAL CRIMPING TOOL

Crimps header pins, telephone terminals and small non-insulated quick connectors. Also incorporates wire cutters and spring loaded handles.

Part Number  
**T1548**

### UNIVERSAL CRIMPING TOOL

This would be the unique low cost tool that does all the crimping that you would need. It will crimp the red, blue and yellow insulated terminals. It also features a wire cutter, wire stripper (0.75-6.0mm), bolt cutter (M2.6 -M5) and a selection for crimping non-insulated terminals (1.5-6.0 mm)

Part Number  
**SFPN2210**

### HEAVY DUTY CRIMP TOOL

Professional grade crimper ideal for automotive terminals and connectors. Crimping range 0.25mm - 6.0mm (suits red, blue and yellow size connectors). Ratchet action handles. Heavy duty all metal construction.

Part Number  
**T1552**

### HAND HELD CRIMP TOOL

This simple, rugged hand tool is ideal for small production runs, prototypes or repairs. It's easy to operate and includes a ratchet assembly and dies for precision crimping of terminals on wire sizes from 18 AWG through 28 AWG. The resulting terminal-to-lead connections are strong, durable and completely reliable.

Part Number  
**HC1001**

### HAND HELD CRIMP TOOL

Quality German Ratchet controlled Triple jaw tool. Suitable for non-insulated open barrel terminals. Crimp range: 0.25 - 6mm?

Part Number  
**THCRF15**
